

# Yellow Bus Nation Payment Suite

The Yellow Bus Nation payment suite was created to help student transportation providers improve efficiencies and save money. We offer 3 payment programs that integrate seamlessly. You get all the benefits of each program along with added tools and perks, and they all work together on one platform.

## Electronic Payment System

*Make electronic payments to your vendors that are more efficient and secure.*

### Make A/P Easy

Don't waste time sending numerous checks for many vendors and invoices. Combine invoices into one secure, efficient payment.

Payment Solution

## Travel and Expense Card

*Pay employee expenses with an easy-to-use card accepted throughout North America.*

### Integrated Into Your Process

We give you an easy-to-use card, plus automation and integration with your accounting system and free expense reporting software.

Payment Solution

## Fleet and Fuel Card

*Purchase fuel at the same stations you do now, but with added security and reporting.*

### Detailed Data to Manage Cost

Our card makes payments easy, but it gives you much more. Driver PINs, odometer readings, and other data can help you optimize fuel spend.

Payment Solution

## Unlimited Cash Back

In addition to added efficiencies, software tools, data reporting, and fraud control, our payment programs provide you with unlimited cash back rebates on eligible spend. Combining your total spend on accounts payable, travel, fuel, and other expenses means cash can add up quickly!

## Security and Fraud Control

Fraud is a critical concern, and the Yellow Bus program provides you tools to fight it. For vendor payments, virtual cards restrict how and where payments are used. For employee transactions, you control who uses the cards, how much and how frequently they use them, and where they use them.
