

Yellow Bus Nation Payment Suite ePayables Program

Payment Solution

The Yellow Bus Nation ePayables program can streamline your purchasing by providing you cash back while adding efficiency and reducing the chance for fraud. This program is available at no cost to you.

The program adds efficiency through single payments. The traditional process means the hassle of numerous payments for many different vendors. Reconciliation requires many reports, and there is no rebate.

With the ePayables program, one single payment can cover everything in your operation, from tires to lubricants to parts and more.

In return, you get cash rebates that can add up quickly with significant volume of eligible purchases. Plus, you get the security of a fraud-reducing virtual payment system. In short, added efficiency for payments you make today plus cash back equals a win-win situation for your organization.

“Traditional” Method

“New” Method

Make purchases and receive invoices using the same process you use today.

Create and send numerous checks for many vendors and/or invoices.	Send a single payment to Yellow Bus Nation.
Reconcile numerous payments for many different vendors.	Reconcile one payment.
No rebate.	<u>Unlimited</u> rebate on eligible spend.

Virtual Cards Add Fraud Protection

Our ePayables program uses virtual cards. Each time you make a payment, we provide a unique 16-digit card number to each of your vendors. The number is authorized only for that single vendor and exact payment amount. How does that reduce fraud?

- **No Card to Steal** - There is no physical card to steal, and each card number expires quickly.
- **No Cash to Spend** - Each card is authorized only for the specific amount to be paid, so there is no “extra” credit to steal from.
- **No Invoice Confusion** - Each payment is tied directly to invoices, so the vendor knows where it goes.

We can help turn an efficient single payment from you into more secure independent vendor payments, helping to reduce cost and stress for you.

Savings Add Up Quickly

Because the ePayables program covers payments for any products or services, the increased spend volume can mean more direct savings for you. More spend means more rebate. In addition to saving you time and adding an extra layer of fraud protection, you can get significant savings.

Our goal is to help you put money back in your budget however we can!
